

**1** Reducing permeability of building envelope  
**5% CO<sub>2</sub> reduction**

**2** System meters fitted with alarms  
**3% CO<sub>2</sub> reduction**

**3** Improving fan efficiency  
**5% CO<sub>2</sub> reduction**

**4** Less leaky ductwork and air handling units  
**10% CO<sub>2</sub> reduction**

Improving U-value of glazing  
**1% CO<sub>2</sub> reduction**

Improving lighting efficiency  
**5% CO<sub>2</sub> reduction**

**5** Improving chiller efficiency  
**10% CO<sub>2</sub> reduction**

**6** Putting in more efficient boilers  
**2% CO<sub>2</sub> reduction**
