

Network reinforcement proposed for control period 2013-2021

	National Grid electricity transmission MW	Scottish Power electricity transmission MW	Scottish Hydro electricity transmission MW
Baseline	7,250	3,300	300
Unconfirmed works		1,100	16,000
Flexible baseline	22,150		
Strategic wider works	7,900		

Notes: Cost allowances for unconfirmed works are included in final determinations for Scottish Power and Scottish Hydro but are subject to approval and the operation of an uncertainty mechanism. Flexible baseline and Strategic Wider Works are not included in the final determination for National Grid
